To,
The Hiring team,

Dear Recruiter,

I have seen this immense opportunity from your organization page. Have an experience of 1.8 years as Operations Executive at Infosys Ltd.,

- Python is my key trait to learn data pre-processing, machine learning, natural language processing, deep learning.
- I have learnt SQL since UG now further molded database learnings such as MySQL, MongoDB, Neo4j.
- After that, I have developed interest in Big Data management using HDFS, Hive, Pig, PySpark.
- Data visualization is being my graphical interest as it can evolve raw, unprocessed data into statistical, graphical and much interesting story telling about data.

Having work license in India. I am currently a final year MSc. Data Science student in India.

I am much endeavored to work in an organization like you since you people cordially inviting to explore high in demand projects.

Thank you for your consideration.

Sincerely,

Swathi
